Attachments: Request from US Environmental Protection for Meetings with Oklahoma University Leadership for the National Weather Service and the Innovation Hub.docx

Mark and Nadtya-- please use this version of the document for proposing meetings at OU. This version has everything Mark and I will need to hit the ground running.

Nadtya-- I see that one person is available to meet with us from NWS. Perhaps he can help us contact Tom Wavering or arrange for him to join us in the meeting as he is the key participant.

Mark - look at the middle of this document-- at you OK with including info about the Council Public session? I feel we need to because we are asking the Fab Lab to go to OKC for that.

Nadtya-- perfect. Thanks. Can you tomorrow then look at who we should meet, who has already said they are not available, and advice on who we should aim for? You can add their names/titles to the paper i just sent you after you figure it out. Mark- i think now we will be able to make sense of the names Patrick had provided.

Thanks!

Subject: Fab Lab

The Fab Lab is part of the Tom Love Innovation Hub

(<http://www.ou.edu/content/innovationhub/explore/fablab.html>) along with the Tom Love Center for Entrepreneurship (which according to the website is under the Business School -

<http://www.ou.edu/entrepreneurship.html>). This press release talks about the co-location

http://www.ou.edu/web/news_events/articles/news_2016/university-of-oklahoma-opens-the-innovation-hub-.html

Linked in shows me that the Executive Director of the WHOLE Innovation Hub is Tom Wavering. I assume that means he is Brandt's boss. Here is more background on him:

<https://www.linkedin.com/in/tomwavering/> . I can't find his contact info for the life of me. Will try again tomorrow.

I just found the hierarchy!!!:
